No-Friday experiment for IETF 103

- Outstanding questions
  - Make lounge + network available Friday? Until what time?
  - IAB/IESG wrap-up: Friday morning? Or some other time?

- To-dos if we run the experiment
  - Include relevant meeting survey question
  - Ask people informally for feedback
  - Review data about how many WGs request “no Thursday”
  - Anything else?

- Next step: draft note to the community
